

Ethan Tubbe

Junior Back End Developer

✉ tubbeethan@gmail.com 📞 (360) 349-8970 📍 Olympia, Washington

Profile

I'm a self-taught back end Python developer with an understanding of front-end technologies, looking to expand my skill set and solve cool problems.

Technical Projects

Twitter Trend Sentiment Analyzer

github.com/ethan-pt/Twitter-Trend-Sentiment-Analysis

- Implemented trend data and API calls using Python
- Achieved natural language sentiment analysis using TextBlob/Python

Outage Detector Signal Bot

github.com/ethan-pt/gmail_to_signal

- Utilized GCP's Pub/Sub functionality to receive email alerts
- Implemented a containerized Signal CLI to inform users of outage reports

Courses

Codecademy: Python 3	Dec 2021
Codecademy: Intermediate JavaScript	Feb 2022
Codecademy: Git & GitHub	Mar 2022
